## Dangerous Goods & Hazmat Logistics

Secure, compliant shipping with certified containment. Route King holds full TDG (Transportation of Dangerous Goods) certification and expertise in hazardous material logistics. Every shipment is handled with precision, proper documentation, and state-of-the-art safety protocols.

From flammables and corrosives to oxidizers and toxic materials, we deliver hazmat solutions across Canada with regulatory compliance, specialized driver training, and proven safety records.

### Why Choose Our Hazmat Services?

#### Strict TDG Compliance

Full certification and adherence to Transport Canada regulations ensure every hazmat shipment meets all federal and provincial requirements with complete documentation.

#### Advanced Spill Containment

State-of-the-art containment systems prevent environmental contamination and meet emergency response protocols for every hazardous material classification.

#### Vetted Route Optimization

Strategic routing through pre-approved corridors, established truck stops, and emergency response hubs minimizes risk and ensures safe, efficient transit across Canada.

#### Certified Driver Expertise

All drivers undergo specialized hazmat training, emergency response certification, and continuous safety updates to manage dangerous goods responsibly.
